Echo Global Logistics, Inc. Announces Increase in Common Stock and Convertible Note Repurchase Authorization

CHICAGO, April 30, 2019 /PRNewswire/ -- Echo Global Logistics, Inc. (NASDAQ: ECHO), a leading provider of technology-enabled transportation management services (“Echo” or “the Company”), today announced that its Board of Directors (the “Board”) amended its ongoing repurchase program on April 26, 2019, which provides for the repurchase of the Company’s outstanding common stock and 2.50% convertible senior notes due 2020, to add an additional \$50 million of capacity through October 31, 2020. As of the amendment date, and inclusive of this \$50 million increase, the Company has approximately \$62 million of repurchase availability under its repurchase program.

Under the program, purchases may be made from time to time in the open market or through privately negotiated transactions, block transactions, or other techniques, as determined by the Company’s management and in accordance with prevailing market conditions and the requirements of the Securities and Exchange Commission (SEC). The Company expects to fund all purchases from cash on hand, cash available under the Company’s revolving credit facility, and future cash flows from operations. The Company is not obligated to acquire a particular number of shares or principal amount of convertible notes, and the program may be discontinued at any time at the Company’s discretion.

“The decision by our Board to increase the capacity of our repurchase program demonstrates our confidence in the continued strength and long-term growth prospects of our Company,” said Doug Waggoner, Chairman of the Board of Directors and Chief Executive Officer at Echo. “We continue to generate strong cash flows and maintain a solid balance sheet and this increase in repurchase authority under the repurchase program is consistent with our balanced approach to capital allocation, while allowing us to be opportunistic moving forward.”
